---

Steve:

The January update looks fine. I do have the following questions:

What are the plans for the remaining liquid in Tank 26 and is Tank 26 going to be demolished? Also, it was my impression that you will now remove waste from Tank 27.

Thanks

Subject: January Monthly Progress Report

Attached is the January Monthly Progress Report for the Falcon Refinery. I apologize for sending the report late. I had a death in my family and was out all last week and missed my calendar notification.

Please let me know if you have any changes.
